CERTIFICATES**

**Arts/Science Expo
for all of
LORDSHIP
Grade Levels K-6**

**Would you like to
be a Scientist,
Inventor or
Artist?**

Amaze and inspire the
Lordship community with
your knowledge, creativity
and ingenuity!

Lordship SMARTS Science Expo

Friday February 2nd, 2018 from 5pm-8pm at Lordship School

The Lordship Fathers' Club presents LORDSHIP SMARTS, a science exposition open to all students (K-6) who live in Lordship or whom attend Lordship School. Lordship SMARTS is an opportunity for students to share their enthusiasm for science by crafting a project at home and sharing it with the community.

All students who participate in 'LORDSHIP SMARTS' will receive a participation certificate, and the sense of pride and accomplishment derived from participating in a Science Exposition.

Students willing to participate in competition, prizes will be awarded to the top three exhibits in four separate categories – Invention, Scientific Experiment, Scientific Display, and Science through Art.

Judges will measure projects on creativity, innovation, practicality, neatness, craftsmanship, understanding of the principles, and degree of difficulty.

For more details about the event, photos of previous exhibits, entry forms, and suggestions on how to present your project, students should review the resources found on the 'SMARTS' page of the LFC website.
